

brusilow+associates
more than wordsmiths

More than wordsmiths...

Details, details. That's what makes a boutique court reporting agency like **brusilow+associates** different. While we understand you require the most comprehensive package of services for your litigation needs, we think our business is about more than just "words."

More than customer service...

Call us and we'll know your name. We take the extra step to get to know you, because we see our clients as family. So the next time you call, you'll receive all the litigation support services you expect from such an experienced agency, with that unique "plus" for which we're known. That's just how we do it at brusilow+associates.

More than a court reporting agency...

How we see our clients is how we see our cases—there are no two exactly alike. brusilow+associates tailors years of complex litigation experience to specifically fit your needs. Our staff of reporters have experience in all types of litigation, so you can be confident that the fit of reporter to attorney is the right one. Our experience is enhanced by the industry's most cutting-edge technological services, such as our online repository, which adds the ultimate in convenience and access.

More than just reporters...

Sure, we're all experienced professionals, too. But first and foremost, our staff is a group of individuals, each bringing a little something different to the conference table. Our diversity is what allows us to create the one-of-a-kind litigation solutions our reputation is built on. The fact is, we see cases much like we see ourselves—as uniquely different. To us, it's what makes you more than just another case, and what makes us more than just—well, you get the idea.

More than the usual services...

See how brusilow+associates can streamline the entire data management process down to the very last, well, detail.

Online Repository

One place, one space. We uplink transcripts to our server where all audio and wave files, as well as exhibits, are stored. Once there, use your password to exclusively access the site and print or download either a transcript or exhibit—24/7 from absolutely anywhere. If you'd like to see how it works, we'll gladly e-mail you a demo.

CD-ROM

After the transcript is completed, we can burn the data onto a CD, along with scanned exhibits.

Audio Synch

Why rely on a dry reading in front of the jury? Our Audio Synch capabilities capture a witness' emotion, right down to their softest whisper—something you just can't get from words on paper. Hearing is believing, so make their words come alive.

Condensed Transcripts

Lighten your briefcase by lightening your transcript. Using both sides, hundreds of pages of testimony can be reduced to a few dozen. Plus, on each Min-U-Script® is an index of all words with page/line references so you can find facts faster. Saves you space, time and storage fees.

Document Scanning

We can scan all documents into a PDF or OCR file and send it via e-mail. So now you can have digital images of exhibits along with the transcript. When an exhibit is referenced, click it and view it—it's instant access.

Internet Depositions

Save in travel time and costs. As long as you have an Internet connection, you can be there for the testimony, even when you're not in the room. We can transmit depositions—instantly—to anyone, anywhere.

E-Mail Services

Simplify the review process. Utilizing high-performance E-Transcript™, we'll import the ASCII file for a fully indexed, customized, interactive E-Transcript. Then we'll send you the finished file via e-mail in a secure, password- and virus-protected format, along with the handy E-Transcript Viewer. This ensures the utmost in page and line integrity, while saving you time in digesting and summarizing proceedings.
